

GRANTS

• Federal • State • Local Grant Opportunities

FEDERAL GRANTS:

Successfully authored highly competitive United States Environmental Protection Agency (USEPA) Brownfield grant applications for brownfield redevelopment Projects. The various USEPA grant programs include:

- Site Specific - Petroleum
- Site Specific - Hazardous Waste
- Community Wide - Petroleum
- Community Wide - Hazardous Waste
- Clean Up
- Revolving Loan Fund

Partners can also assist with other Federal Programs.

STATE GRANTS:

Experienced with the State of Ohio Department of Development, Office of Urban Development and Clean Ohio Grant Programs. Successfully participated in, authored and/or executed many Clean Ohio projects. Experience with various State grant programs including:

- Clean Ohio Assistance Fund - Phase I or Phase II Assessment
- Clean Ohio Assistance Fund - Clean-Up
- Clean Ohio Revitalization Fund
- Brownfield Revolving Loan Fund
- Job Ready Sites

Partners can also assist with other State Programs.

LOCAL GRANTS:

Partners has strong connections with local governmental agencies, which supports good lines of communication, allowing Partners to promote projects. The local government agencies typically use funds received through Federal and State grant programs. Various local grant opportunities are available from municipal and county agencies.

Partners has a deep understanding of the grant process and knows what it takes to score high in an application. Our creative approach to funding Brownfield projects separates us from others, and our experience will support your efforts to combine grants, identify matching funds, provide in-kind services and secure financing for complex sites.
